  - E-mail: [petersga@tecom.usmc.mil](mailto:petersga@tecom.usmc.mil)
- **Training Plans** Maj J. Guadagno
  - Phone: DSN 278-3062
  - E-mail: [guadagnoj@tecom.usmc.mil](mailto:guadagnoj@tecom.usmc.mil)
- **Reserve Training Plans** Maj K. A. Sullivan
  - Phone: DSN 278-3068
  - Email: [sullivanka@tecom.usmc.mil](mailto:sullivanka@tecom.usmc.mil)
- **By Name Assignment** Maj C. Felton
  - Phone: DSN 278-5975
  - Email: [feltonc@tecom.usmc.mil](mailto:feltonc@tecom.usmc.mil)
- **Program Analyst** Mr. J. A. Halterman
  - Phone: DSN 278-2508
  - Email: [haltermanja@tecom.usmc.mil](mailto:haltermanja@tecom.usmc.mil)

# Mission

*Facilitate implementation of the USMC formal training continuum through a consolidated training information management system of planning, scheduling, tracking, and reporting that will provide combat-capable Marines to the operating forces and result in sustained combat readiness.*

... put the right Marine ... in the right  
seat ...  
at the right time...

# Functions

- **Annual TIP Conference** - Identify service-level training requirements at all USMC formal schools and other service schools.
- **TIP** - Annually publish and program the Marine Corps Training Input Plan.
- **Schedule Wizard** - Consolidate/Manage all USMC schoolhouse schedules & other service school schedules.
- **TQM** - Annually publish and update as required the Training Quota Memoranda - Class schedules + TIP requirements.
- **BNA** - Track execution of the training plan.
- **FSC** - Annually publish/update the USMC Formal Schools Catalog.

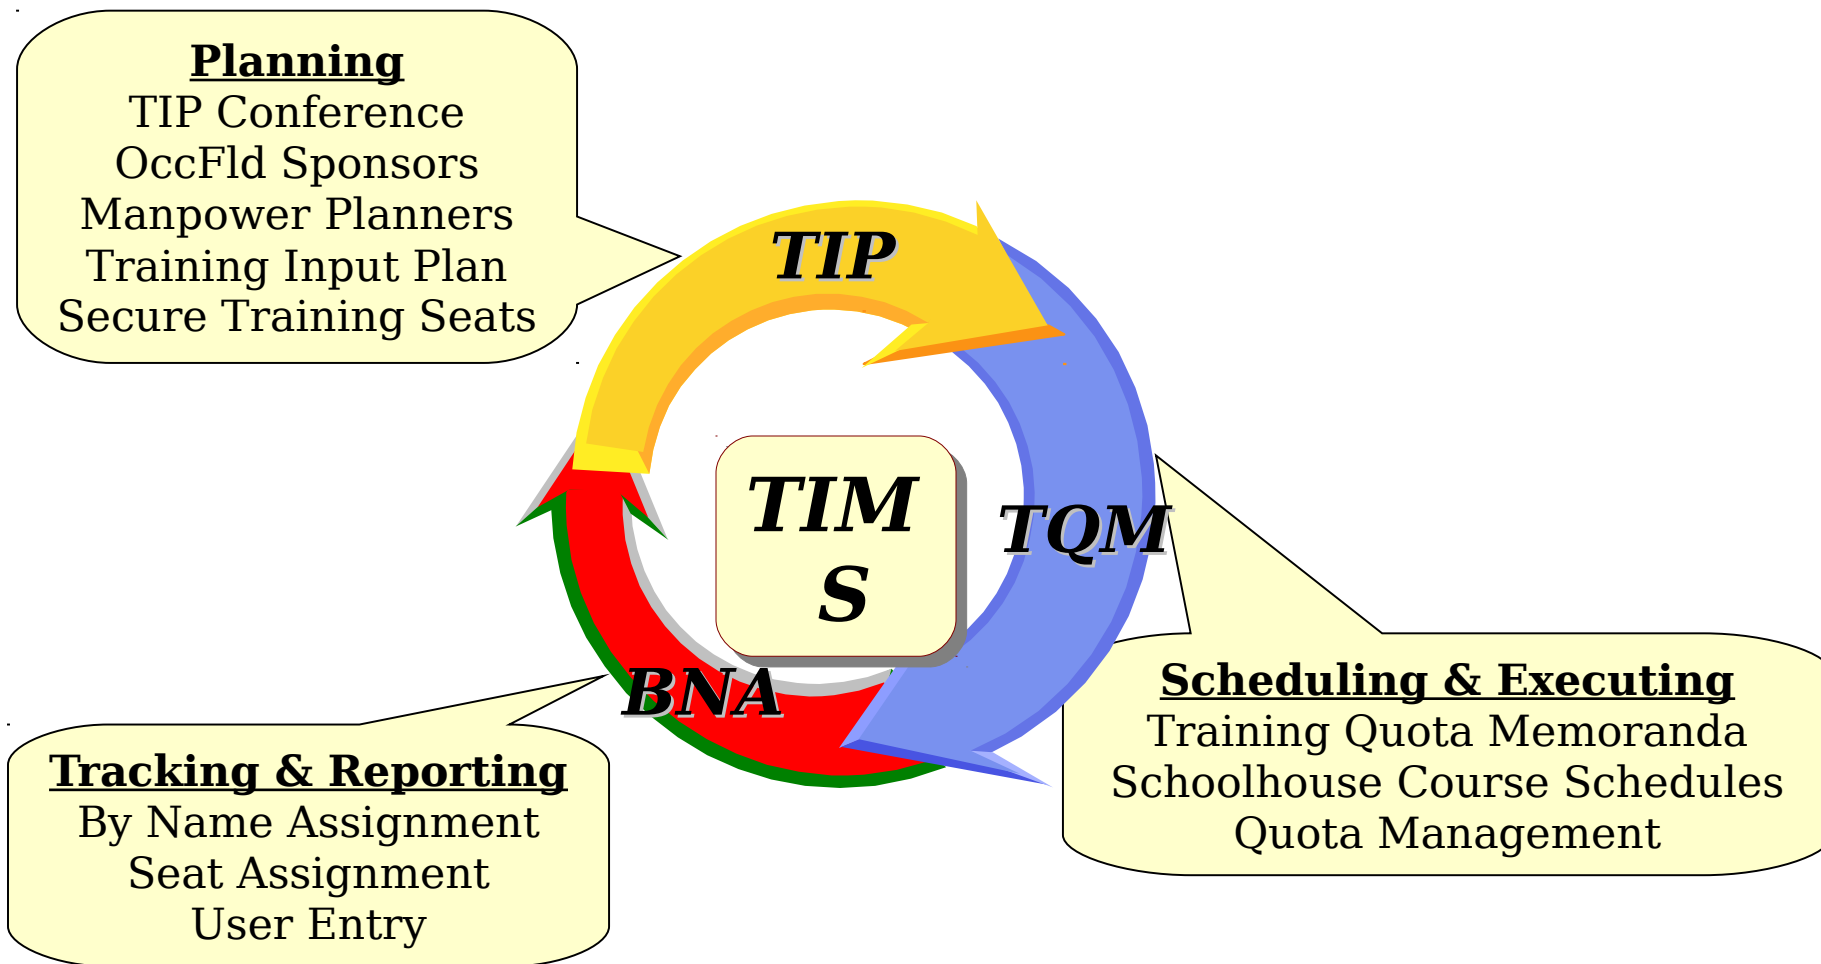

# Systems/Products

- **TIMS** - *Training Information Management System*
- **TRRMS** - *Training Requirements & Resources Management System*
- **FSC** - *Formal Schools Catalog*
- **TIP** - *Training Input Plan*
- **TQM** - *Training Quota Memoranda*
- **BNA** - *By Name Assignment System*
- **SREIS** - *Situation Report Executive Information System*
- **MMTR** - *Military Manpower Training Readiness Report*
- **ITRR** - *Institutional Training Readiness Report*

# The Big Picture

# Scheduling Wizard

- ***Schoolhouse Course Scheduling Module***

- *Enables schools to submit course schedules via web interface*
- *Reduces potential for errors*
- *Provides for timely schedule changes (including cancellation requests)*
- *Enables real-time update of schedule changes to TQM and BNA*
- *Commenced with FY 03 schedules*
- *Results thus far are very encouraging*
- *All USMC schools/dets shall submit course schedules to TECOM via the Scheduling Wizard by 1 Jun for the*

# By Name Assignment

## ***•It's Critical to Tracking the Training Plan!***

- Provides a measure of effectiveness for requirement planning against actual training execution*
- Justifies and drives the training budget*
- Justifies USMC institutional training to DoD and Congress*
- Basis for schoolhouse attrition input to the Enlisted Accessions Initial Classification Plan (ICP)*
- Used by MMEA-RDM for entry-level training assignment*
- Provides schoolhouses visibility on inbound students*

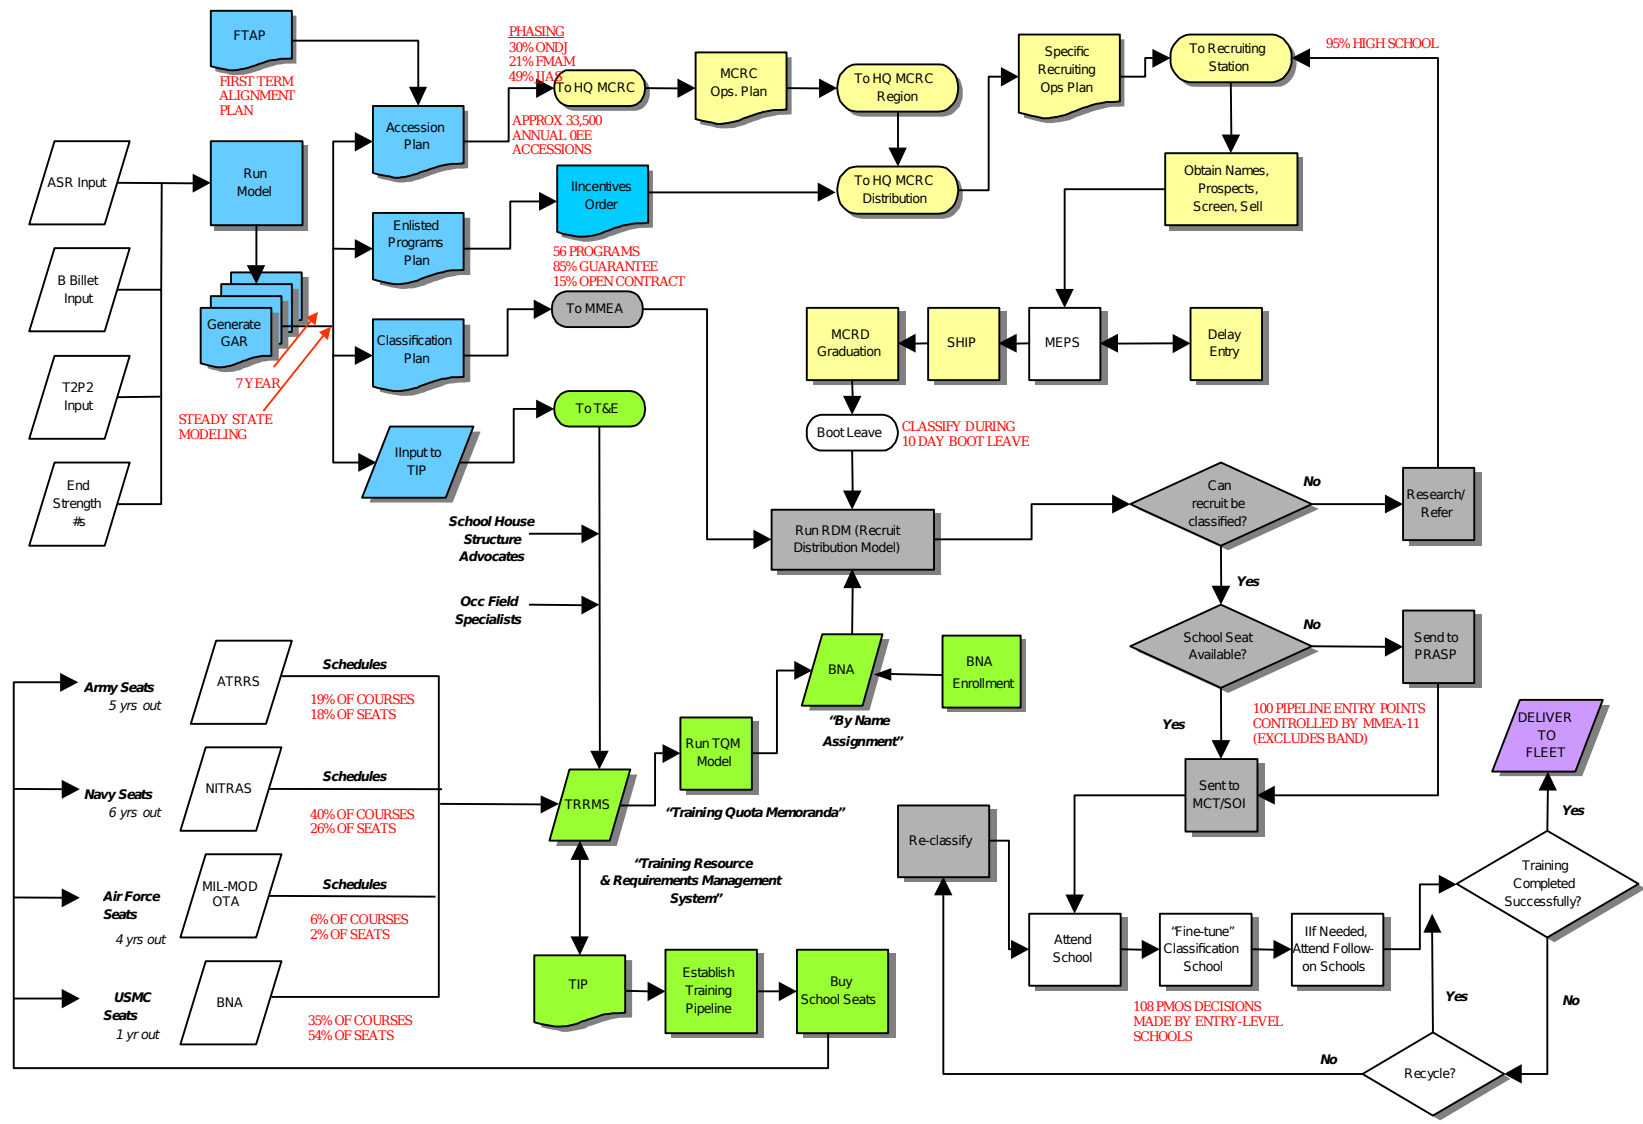

# Milestones

- ***15 Feb - Publish TIP for Next FY to TIMS***
- ***15 May - TIP Planning Conference***
- ***01 Jun - Receive All Class Schedules***
- ***15 Jun - TQM Completed for Next FY***
- ***Class Convene Date + 2 days - Update BNA Roster***
- ***Class Grad Date + 7 days - Validate***

# Recruiting Trimester

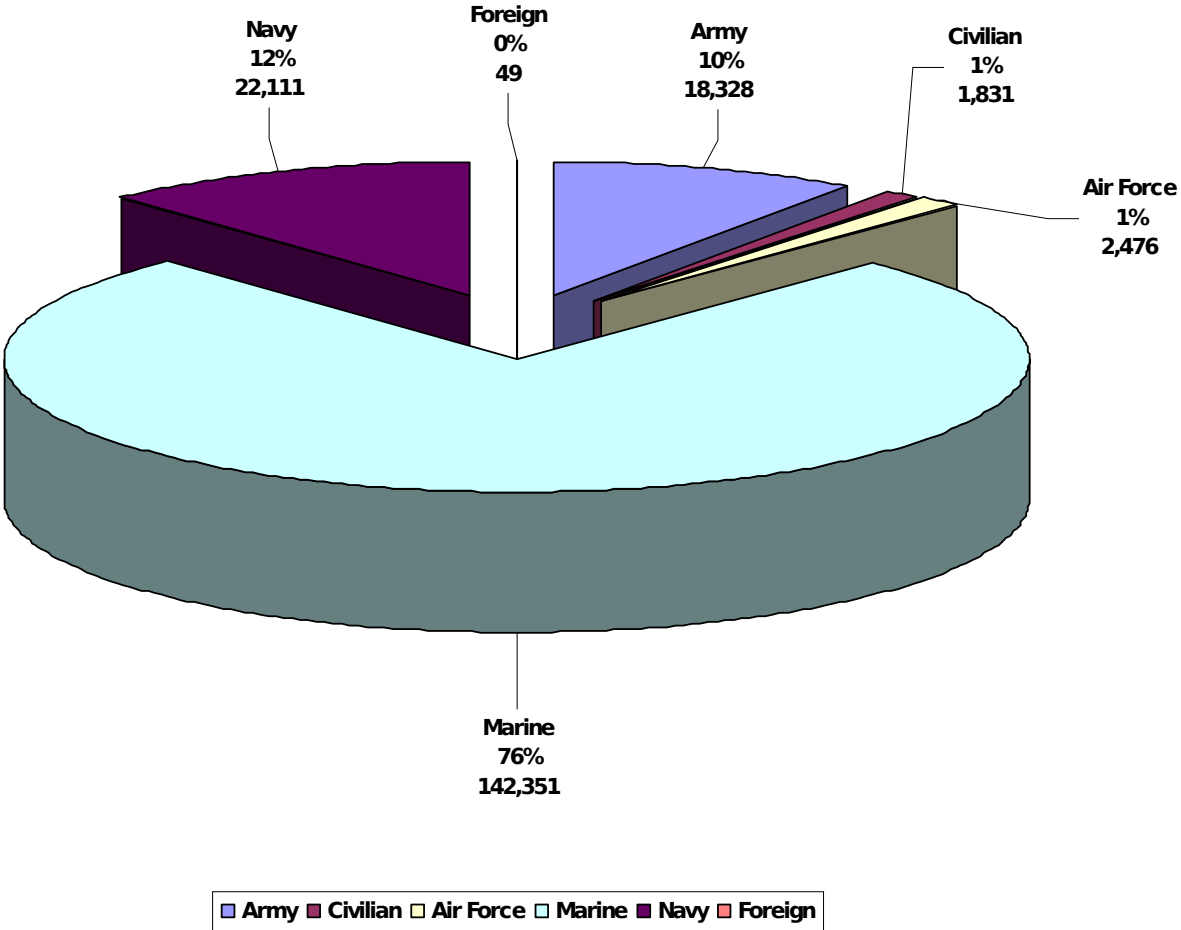

# Training Trimester

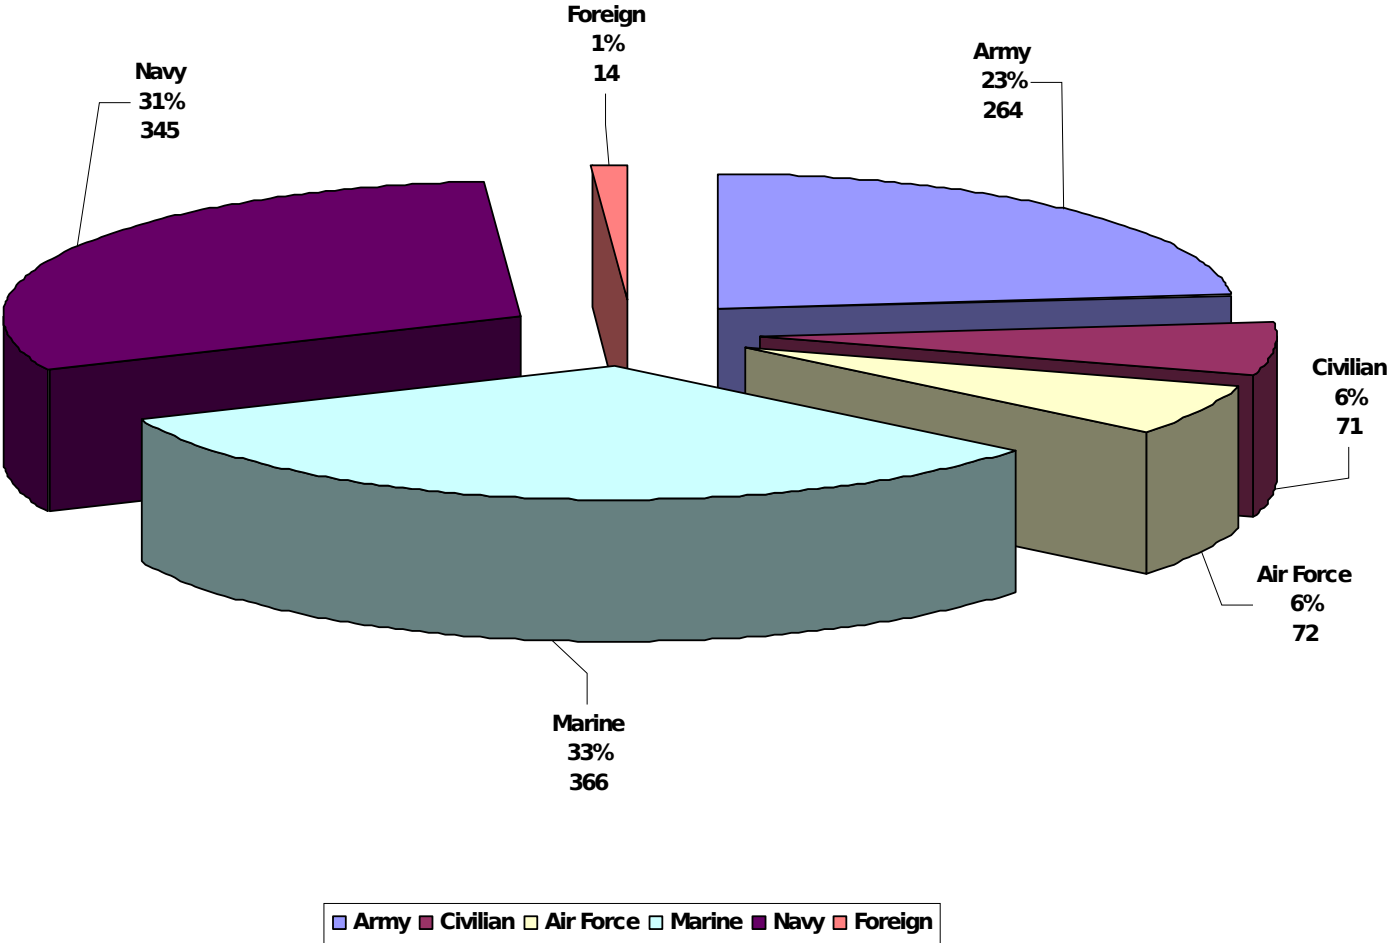

# Annual Training Seats: Marines by Service

# Courses Marines Attend by Service

# TIMS Module Definitions

Phase I	Definitions
NMCI Seat Mgmt	<b>NMCI Requirements, Seat Identification, Management and Reporting</b> - TECOM/MARSYSKOM system designed to support the NMCI rollout within the Training and Education Command
Meta-Data Foundation	<b>COTS Security, Navigation &amp; Reporting</b> - COTS Application Package designed to provide pre-packaged security, navigation, query, workflow and reporting engine to support the creation of common applications
T&R Manual (Prototype)	<b>Training and Readiness Manual</b> - Manual creation of doctrinal force structures, training events, references and other object to support the sustainment of readiness for units.
Range Management	<b>Range Management Web Based Portal</b> - Centralized repository of range related references including range policy, range design and range safety. Includes GIS mapping and analysis capability for all USMC ranges
RASPAS	<b>Training Management, Unit Administration and Reporting</b> - Enhanced version of RASPAS, the original software developed by San Diego as a training and schoolhouse administration system
SMIP	<b>Sports Medicine Injury Prevention</b> - Injury collection and tracking tied to both student and training event. Includes multi-variable reporting and statistical analysis capability.
Scheduling (MCAIMS)	<b>Manual and Rules Based Scheduling of Training Events and Training Resources</b> - Capability includes the creation of multiple training schedules based on time requirements and
Phase II	
BNA II (Student Registration)	<b>Student Registration</b> - Capability includes viewing service wide course availability, creating preliminary course request, available funding validation, role based approval and waiting list management
Financial Management	<b>Travel Budgeting, Allocation, Funding and Reconciliation</b> - Capability includes the budget tracking, fund allocation to individual quotas, funding request processing and reconciliation after
TRRMS (New)	<b>Quota Management and Congressional Reporting</b> - Capability includes Course quota determination, quota management, course catalog presentation and congressional reporting.
Phase III	
MCAIMS (New)	<b>Curriculum Development, Student Management &amp; Training Management</b> - Capability includes complete curriculum development, approval and tracking, student management and performance tracking
Digital Document Mgmt	<b>Electronic Document Management, Workflow and Approval</b> - Supports universal document tracking and management across the TRRMS modules - RASPAS, BNA, MCAIMS, SREIS, T&R, etc.
SREIS II	<b>Situational Reporting Executive Information System</b> - Standards based reporting and analysis vehicle. Extraction, Hierarchical Reporting, Dynamic Metric creation and Reporting,
ATRIMS	<b>Training, Tracking Management</b> - Automated Training and tracking system for Operational Forces. Supports readiness tracking at an individual and unit level.
